Dear Sir,

REGISTRATION OF COSMETIC PRODUCT

This is to inform you that the Food and Drugs Authority (FDA) has completed the review of your cosmetic product application submitted pursuant to Section 118 of the Public Health Act, 2012 (Act 851) for the registration of **COLOSTRUDERM CREAM (Isopropyl Myristate, Colostrum, Glyceryl Stearate)**

Based upon the information presented to date, the FDA has concluded that the cosmetic product is safe for use as recommended in the submitted labeling, subject to the conditions in this letter.

Your application has, therefore, been approved and issued with the registration number **FDA/Co.22-1147**.

This registration is valid for three (3) years and expires on **February 1, 2025**.

A certificate of registration has been issued with respect to the above.

The conditions which apply are as follows:

- The product must conform to all product information submitted in your application.
- The product shall not contain any of the substances not permitted in cosmetic product in accordance with the National Standard (GS 227:2-2017).
- The product cannot be advertised via promotional material/product launch unless the advertisement has been vetted and approved by the FDA.
- No changes may be made to the indications, quality specifications, composition and packaging materials of the product without prior approval from the FDA.
- Importation of the product is not permitted after the period of validity of the registration has expired.
